GRIPPER HACKATHON

28-29. November 2017

THE GRIPPER HACKATHON is a **robotics hardware Hackathon** where you will **design and build** a 3D-printed gripper by your own.

This Hackathon will take you and like-minded passionate students, makers and researchers on a journey into the creative do-it-yourself culture with open-innovation methods like co-creation.

To register write an e-mail to: Maik.Siee@ipa.fraunhofer.de
